The proposition to dispense with the services of all the lady clerks in the Treasury is daily gaining ground. Secretary McCulloch has taken the matter into serious consideration, and it is believed will decide to discharge them all, and where found necessary will fill their places with worthy and efficient men. Very many obstacles are thrown in the way of the project, and numerous arguments in favor of the retention of the ladies have been and are being offered, one of the strongest of which is that many of them would be without employment if thrown out of the Treasury, at the present time, now that the winter months are upon us. But notwithstanding all the arguments offered in favor of the ladies, the officials of the Treasury declare that the employment of women as clerks and copyists which as yet is but an experiment, is a failure.

Gov. Wells, of Louisiana, signed the memorial to Congress for the supersedure of the State government by a provisional territorial concern. He says he did it reluctantly and against his better judgment, but to please some of his friends. A man who will confess to the friendship of such vagrants as the Louisiana conspirators, ought to have no scruples at any infamy.

Hearses and Metalic Burial Cases and

WOULD call the attention of undertakers, and the public, to their large variety of Hearses of the most approved patterns, and of the finest finish-unrivaled for elegance, utility and durability.

Our "New Plain Case," patented December 12, 1865, combines all the most recent and valuable improvements, and is more complete than any Burial case ever before invented. Our Metallic Burial Casket, in its simplicity of design, and its freedom from all associations of grief, is unsurpassed. It is almost entirely covered by the best polished plate glass. Its finish is that of the finest rosewood. The Ornamental Casket, with its heavy and elaboratelywrought emblematical ornaments, their bright silver contrasting with the dark polished ground work, is of striking and appropriate

Over wooden coffins, these Burial Cases and Cakets possess many important advantages. I'ney protect from water, vermin, and other intrusion, answering for generations every necessary purpose of a vault. Removal from the original place of burial—should it ever be desired—can easily be accomplished. Bodies can be preserved for days or weeks, awaiting the arrival of absent friends. Removal to any part of the globe, at any season of the year, is entirely practicable. The surest safeguard is effected against contagious diseases. Directions accompany every Burial Case and

Casket, in reference to closing, and should be strictly followed. 90 Magazine-st., N. O. aug7-6md&w.

Cotton can be ginned in the field as readily as grain can be trashed, and the complement of machinery we have arrranged, will effect this.

This we have gotton up because of the widespread destruction of Gin Houses, and the nacessity of a portable set of Ginning and Pressing Mchinery. Steam Power, 4 to 8-horse, can be substi-
